

Indiana Early Childhood Educators: The 2026 INAEYC Annual Conference Is Designed for YOU

As we prepare for the 2026 INAEYC Annual Conference, I want to personally invite our early childhood professionals across Indiana to join us. This year matters in a special way.

While many regions offer strong local PD opportunities, the INAEYC Annual Conference provides something uniquely powerful:

- ✓ Professional development that is vetted, intentional, and structured through clearly defined tracks
- ✓ Content tailored to your setting, your role, and your purpose
- ✓ A statewide community of colleagues who share your passion for early learning

This conference is more than professional development; it's a chance to elevate the professionalism of our field and strengthen the connections that hold our community together.

You deserve to feel appreciated.

You deserve to feel rejuvenated.

You deserve high-quality learning designed specifically for you.

FROM THE EXECUTIVE DIRECTOR'S DESK

We also recognize that financial strain is real for many educators right now. Attending a conference can feel like a heavy lift. But there is a meaningful investment in your practice, your growth, and the future of early childhood education in Indiana.

To support you, we are offering an OECOSL funded 50% Conference Scholarship this year. If cost is a barrier, please take advantage of this support. We want you in the room.

This is our time to reconnect, rebuild momentum, and reinforce our shared commitment to early learning across the state.

I hope to see you at the 2026 INAEYC Annual Conference. Your presence matters, to your community, to this profession, and to the future of Indiana's children.

With appreciation,

Dr. Hanan Osman

Indiana Association for the
Education of Young Children
